

BUSINESS: ACCOUNTING (A.A.S.)

HEGIS: 5002

SUNY CODE: 0630

Accountants collect and analyze financial data, design and maintain accounting systems, prepare budgets, financial statements, and tax returns, and conduct audits. The A.A.S. degree in Accounting will prepare students for entry-level positions in the accounting field.

Career Opportunities

The Department of Labor predicts the demand for accountants will continue to grow over the next decade. Herkimer graduates find jobs in public accounting and private industry, as well as in the not-for-profit sector and for state and local government agencies.
