PRESIDENT’S REPORT
Dr. Murray reported that there were five submissions for the BOT assessments, and the results were given to the board. Dr. Murray reported that an annual assessment will begin again in March 2011.

As a result of the 2010 BOT Assessment, we are investigating electronic access to non-sensitive Board of Trustees documents to reduce the cost of paper, reproduction and postage. Upon approval of the Board, a sample can be presented to and reviewed by the board at next month’s meeting, and they can determine who can access the secured site, which will be created within ANGEL, the college course management system. The board gave their consent for Dr. Murray to move forward in having Linda Lamb, Associate Dean of Continuing Education, create the site.

As part of the ongoing updating of the BOT Policies, Dr. Murray is working with Student Affairs and Administration and Finance to identify options for student health coverage. Pending recommendations, policy language will be submitted for Board review at a future meeting.

Dr. Murray also informed the board of the College’s intent to apply for a “Smart Scholars Early College High School” grant for $200,000 to create a program which will bring Herkimer County high school students to campus in order to earn 20+ college credits before high school graduation. The college is working collectively with Herkimer County, BOCES, Kids Herkimer and all 12 district high schools to create a model. The three-year grant will cover such costs as tuition, transportation, administration of the program, and a summer immersion program for the students prior to their senior year.
