

# PHOTOGRAPHIC TECHNOLOGY

**HEGIS: 5007**  
**SUNY CODE: 1036**

The Photographic Technology program is designed to prepare students for a career in the field of Photographic Arts by developing occupational skills, creative problem solving and the experience necessary to be successful in this widely diversified field. Graduates are prepared to:

- Plan creative solutions to photographic projects
- Prepare equipment and materials to complete the job most effectively
- Execute the photograph by capturing the image using conventional or digital means

## Career Opportunities/Transfer Information

Graduates find employment in commercial photo studios, photojournalism, corporate industrial photo units, hospitals, retail and wholesale photographic supply businesses, photographic laboratories, government agencies and public relations firms. Some of our graduates transfer to four-year colleges such as Rochester Institute of Technology, SUC at Purchase, SUC at New Paltz, SUC at Oswego, SUC at Buffalo, Nazareth College and Chester College of New England.
