As part of The State University of New York system, graduates who earn an associate in arts or associate in science degree are **guaranteed admission to a four-year SUNY** college or university.

We are smart.

Starting at Herkimer College is **the smart way** to begin your college career.

Herkimer's associate degree programs are designed to parallel freshman and sophomore classes at four-year colleges and universities. Class sizes are typically smaller than those at four-year institutions, and personal attention from faculty helps build a foundation for success. Herkimer College provides an excellent opportunity to explore a variety of options before committing to a bachelor's level program. Tuition is less expensive than SUNY four-year institutions and a fraction of the cost of most private colleges and universities.

Transfer services include individual transfer counseling, transfer assistance workshops, an annual transfer college fair, individual on-campus visits throughout the year by four-year college representatives, a transfer resource library, transfer scholarships and computer-assisted college search.

Herkimer College has **over 160 transfer agreements** with four-year colleges and universities to provide a seamless transfer of credits.

we are supportive.

Whether you're studying on campus or online, **faculty, advisors and counselors are available** to help maximize your potential.

ACADEMIC SUPPORT CENTER

The Academic Support Center offers a variety of services, free of charge, to help maximize your academic potential.

Services include:

- tutoring
- academic coaching
- academic success workshops
- collaborative learning spaces
- computer labs
- learning styles and strengths assessments
- skill improvement
- study rooms
- services for students with disabilities
- referrals to services on campus and in the community.

CAREER SERVICES

Career counseling is available for students and alumni free of charge.

ADVISEMENT CENTER

Students are assigned academic advisors to help ensure successful achievement of their educational goals. Academic advisors provide counsel related to career and/or transfer goals, help ensure graduation requirements are met, assist students with scheduling and course adjustments, and explain academic standards and regulations.

“With wonderful assistance and professors by my side, I was able to succeed.”

Chelsi Y. Cohen, Class of 2014

Herkimer's annual career fair brings together local and regional businesses to recruit students and alumni for full-time, part-time, internship and seasonal opportunities.

Centrally located within a four-hour drive of New York City, Niagara Falls, Buffalo, Toronto, Boston, and Montreal, Herkimer lies in the foothills of the Adirondacks — one of the nation's largest and most beautiful parks. From skiing to camping and hiking, the area provides plenty of year-round recreation. And with a variety of sports teams, restaurants, shopping, and concert and arts venues in the region, there is never a shortage of things to do.

**Herkimer College students
enjoy one of the most scenic
views in the region.**

we are innovative.

Complete courses and full degree programs
whenever and wherever it works for you.

Herkimer College is a leading provider of outstanding online degree programs. Online students enjoy the benefits of:

- **Convenience.** Many students have very busy lives with full-time jobs and family responsibilities. Studying online lets you complete your education around your schedule.
- **Program variety.** More than 150 courses, 21 associate degree programs and three certificates are offered online.
- **Support services.** Online students have access to the same support services that on-campus students are offered: advisement, tutoring, disabilities services, library services and technical support.

Herkimer College's state-of-the-art **Gaynor Science Center** is bright and spacious and includes five laboratories (biology, microbiology, chemistry, physics, anatomy and physiology), a preparation room and greenhouse. Reflecting curriculum trends and innovations in post-secondary laboratory science courses, the labs provide a teaching and learning environment that provides students with the tools necessary to be competitive in the 21st century.

The SUNY Regional Center for Quality Assurance features technology to support faculty-led instruction in senior-level courses in quality assurance, engineering, physics and math. Designed to facilitate the dynamics of small-group learning, the space can easily be reconfigured to meet the needs of individual students, teams of students working collaboratively, or seminar-style learning sessions.

Communication and Media students experience the real world of media production and learn to create and

share media including video, audio, graphics and journalistic content. Features include an **Adobe graphics and photo lab, and an Avid media computer lab.**

The New York Power Authority Electrical Technology and Smart Grid Laboratory is a new two-million dollar facility featuring smartgrids for hands-on experiments in generation, transmission, and distribution of electrical power as well as renewable energy technologies.
